### **DETAILED ACTION**

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Drawings***

2. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 18-25, 28-33, and 35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors. Please note the problems indicated below.

In regard to claim 18, what is being suggested by the last paragraph of the claim is unclear. Particularly with respect to the "said optical path" in the first line of the paragraph.

As to claim 28, the first paragraph of the claim is confusing. Particularly, what is being suggested by lines 7-8 is not clear.

Concerning claim 30, line 5, what is being suggested by the recitation "... after setting" it is unclear. What is being set?

Regarding claim 35, the claim language in lines 3-5 is circular with respect to the second node device.

#### ***Allowable Subject Matter***

5. Claims 18-25, 28-33, and 35 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

6. The following is a statement of reasons for the indication of allowable subject matter: The art of record taken separately or in combination fail to teach the limitations of the claims.

#### ***Response to Arguments***

7. Applicant's arguments filed 4/27/04 have been fully considered but they are not persuasive for the same reason as the above rejection.

As to applicant's request for an interview, a call was made to applicant's attorney(a voice mail message was left for Mr. James R. Burdett) but there was no response.
